- Neve Foresheew 100 Fly PB 5th
- Adam WK 400 Fc 18th
- Rhys Bridges 400Fc PB 14th
- Paige Williams 50 FC 6th

Winter

- Dave T 10brs & 50 brs 8th place
- Heather W 100 Bk & 50Bk 3rd place

British champs

3 qualifiers this year who travelled up to snowy Edinburgh.

- Dave T
- Heather W
- Ella Theobald

These results show an awesome level of swimming coming from all the squads and the credit goes to the swimmers for their relentless effort levels and dedication to the programmes. We must also take this opportunity to thank the coaching staff that give up all their time on a voluntary basis to help nurture the swimmers to achieve their best both in the pool and in every day life.

Seasons Direction

- We have had a strong start to the season so far with swimmers selected for national talent programmes, DiSE programmes and regional/county teams.
- The club will run of the same cycle programme as previous years. Which consists of three cycles running in line with the school year and major competitions. This has produced progressive results across the club year on year.
- This year will hopefully bring changes within our working relationship with circadian leisure providers. We are looking to develop our performance pathway with the help of Swim England. This will include increased pool access and land conditioning, whilst creating a well-structured sustainable underpinning structure of learn to swim squads (much like D squad). These changed will ensure our long term survival as a club and allow us to create a structure capable of competing with the best in the country.

Club Targets

- To maintain competitive focus across all squad, raising entry levels from lower squads.
- To maintain or beat national qualifiers
- Maintain high, final and medal count at regional level
- Remain in the top three clubs at counties on medal and points table
- Remain in the Premier division for arena league

I wish to take the opportunity to say thank you to Denise for all the work she has done as LTS co-ordinator, bringing many talented swimmers into the club and nurturing them throughout their path.

I would just like to remind everyone that Soundwell is supported by volunteers, and we are always looking, and in need of more people to assist in any way possible.

Thank you all for your time
